

BrackIT[®] Lift 55 - 86"

Mobile stand system with lift function

Item no.: 8280

The mobile stand system BrackIT[®] Lift 55 - 86" combines sophisticated technology and modern design.

With the lift system you can effortlessly move screens from 55 - 86" | 140 - 218 cm screen diagonal effortlessly into the perfect position. Whether for trade fairs, conferences or training courses - our system offers a high load capacity of max. 85 kg, which holds even heavy displays securely.

In addition to a travel distance of 450 mm, the lift's integrated memory function is also a highlight.

Save your preferred screen height and call it up at the touch of a button - saving you time and ensuring that your presentations run smoothly.

In addition, the collision protection ensures that your equipment is always safe. As soon as resistance is encountered, the system stops automatically.

So you can concentrate fully on your content while our stand system ensures the necessary safety.

VESA, min. 200 x 200 mm - max. 1000 x 600 mm

Heavy-duty castors with locking brake

Height-adjustable camera holder included
