ERGO™ Superior Handsaws for Timber/Wet/Tanalised Wood

PRODUCT DETAILS

- Handsaw developed according to scientific ERGO™ process
- For cutting coarse or thick wood materials
- Ergonomic product designed to fit perfectly in the hand
- Unique hardpoint NXT-teething
- Low-friction, rust-protective coating
- Thicker blade for increased stability and precision
- Screwed three-component handle can be used for approximate 45° and 90° marking guide
- Ergonomic and well balanced product, designed to fit perfectly in the hand with superior handling and comfort when sawing
- Maximum comfort with minimum effort thanks to ergonomic design
- Three-component comfortable handle giving an excellent grip with 45° and 90° marking guide
- Longer lasting sharpness from the unique hardpoint NXT toothing
- Increased stability and accurate cutting from the thicker blade
- Easier cutting from the low friction rust preventative coating
- For cutting coarse material
