

Motorcycle Dashcam DrivePro 20

Transcend's DrivePro 20 is tailor-made for motorcycle/scooter riders. Its simple and compact design gives you solid security on the road. Embedded with a STARVIS™ image sensor, the dashcam offers Full HD 1080P recording at 60fps for crystal clear sharpness and night images even in low light. IP68 rated, it is designed to withstand various weather conditions, and resistant to water, dust, heat, and shocks, suitable for outdoor recording. The built-in Wi-Fi connectivity allows live streaming of footage on mobile devices via the free DrivePro App. Its small and portable size makes it easy to carry around. If you ride a scooter for commute, or you are a delivery man, DrivePro 20 is the ideal dashcam for you.

Small, portable, and easy to carry

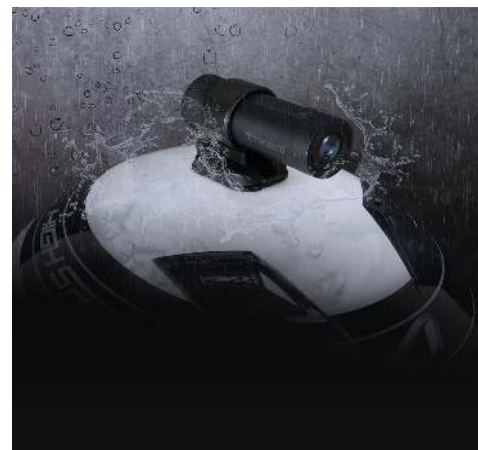

Transcend's DrivePro 20 dashcam is designed for motorcycles and scooters. Its compact size makes it easy to install on a helmet. By pressing the power button for 3 seconds, the DrivePro 20 is ready to hitch a ride with you!

STARVIS™ high-sensitivity image sensors

The DrivePro 20's 140° wide-angle lens is made with a STARVIS™ image sensor and Wide Dynamic Range (WDR) technology to capture high-resolution images with superb, rich color even in low light. Supporting Full HD 1080P recording at 60fps, the camera captures every important detail, including license plates.

Note: STARVIS™ is a trademark of Sony Corporation.

Rugged and durable design

The DrivePro 20 is designed with an aluminum exterior to withstand harsh weather conditions, making it ideal for outdoor recording. It is IP68 rated, offering full protection against dust and water. It also meets rigorous US military drop-test standards for shock resistance.

Note: The DrivePro 20 was tested under controlled laboratory conditions and given a rating of IP68 under IEC standard 60529. Splash, water, and dust resistance are not permanent conditions and resistance may decrease as a result of normal wear. Product must be clean and dry before use. Liquid damage is not covered under warranty.

Motorcycle Dashcam DrivePro 20

Features

- STARVIS™ high-sensitivity image sensor
- 1080P Full HD recording at 60 fps
- Built-in Wi-Fi function for mobile live streaming
- Emergency recording prevents overwriting of the current recorded file
- IP68 rated, resistant to dust, water, and shock

DrivePro Toolbox

DrivePro Toolbox helps you play and manage videos recorded on your DrivePro dashcam without installing any separate codecs.

DrivePro App

DrivePro App is designed for use with DrivePro dashcams featuring Wi-Fi connectivity. Stream videos and adjust settings from your mobile device, and download footage for on-the-go!

Specifications

Appearance
