KETTLE Thermo 18715

[Unold 18715 electric kettle 1.5 L 1800 W Black, Stainless steel:](#)

The BLITZKOCHER Thermo holds 1.5 liters of water. Its double-walled stainless steel water container is also an insulated jug: water stays warm at around 70°C for 2 hours, and around 60°C for 4 hours. Removable and wireless, the BLITZKOCHER Thermo is flexible - as is the 360° rotating cable connection. The large container opening and the covered heating element ensure easy cleaning. Dry boil protection, boil stop with automatic switch-off and the on/off switch with function indicator light ensure safety. Thanks to cool-touch technology, the outside of the water container is always just lukewarm. The safety lock on the lid can be opened at the push of a button for pouring. The cable is stored in the separate base to save space.

Unold 18715. Water tank capacity: 1.5 L. Power: 1800 W. Product colour: Black, Stainless steel, Housing material: Plastic, Stainless steel, Water level indicator. Cordless. Keep warm function
